Infinity Supercritical is Now Available for Acquisition

This unique opportunity allows you to step into a existing Supercritical Extraction machine business.

Our well-proven 10L Supercritical Extractor runs completely silent and operates from a converted standard Cat310 pump.

Included with purchase:

- 10L Supercritical CO2 System Plans
- Fast Filter System Plans
- All available carts of new, used, and surplus parts
- SDR Spinning Disc Reactor experimenters cart (with crate)
- CO2 phase change system demonstrator (with crate)
- BOM, testing, and assembly procedures for 10L system and shipping crates
- Instagram Page with over 300,000 subs
- WebSite
- FileMaker Web Engine which allow you to easily customize website
- Domain and Server Hosting (transferred to your team)
- Email account
- Depending on negotiated price, we may include consulting
- Access to a database of all testing we have done related to supercritical extraction
- YouTube account will all videos
- Access to a database of extraction testing on various botanicals
