

Essential Process Engineering

CERTIFICATE OF COMPLIANCE

STATE OF CALIFORNIA

The Professional Closed Loop Extractor has been reviewed by Essential Process Engineering and meets all the requirements established by the State of California for a Professional Grade Closed Loop Extractor as noted within this report. This report only applies to the Infinity Supercritical 10L-1BP Closed Loop Extractor. Each manufactured unit shall include an individual Certificate of Conformance issued by Essential Process Engineering.

The following Codes, Standards, and Rules have been evaluated for Design Basis:

International Building Code 2015
International Mechanical Code 2015
International Fire Code 2015
NFPA 55-2013 Compressed Gases and Cryogenic Fluids
NFPA 70-2014 National Electrical Code
ASME BPVC VIII Division 1-2013

Certification based on Engineering Report EPE Doc. 161206-1ER (Pages 1 – 43)
